

Born and raised in Tobique Narrows, Perth-Andover, I have spent 25 years supporting our community through public service, volunteerism, and leadership. I bring over 23 years of experience with the Department of Transportation, including the past four years as a Mechanic Supervisor. I have also proudly served as a Perth-Andover firefighter for nearly a decade. I am an active member of CUPE Local 1190 and have served for six years on the Perth-Andover Legion House Seniors Complex Board as an executive member. Looking ahead, I am committed to strong, practical leadership and representing the voices of our community on the municipal council.
