

Sarah Nicholson
Candidate For Councillor Southern Victoria Ward 2
*LIVE*WORK*PLAY*

Born and raised in Perth-Andover. Like many I graduated from Southern Victoria High School and left the province in search of fame and fortune. Also, like many I returned “home”. After raising my family, I left again, this time for the big city lights of Fredericton. Once again, I returned “home” to fully enjoy the blessings of being a grandparent.

I am grateful for all of the amenities that provide us the opportunity to live, work and play right here in Southern Victoria. It is for this reason that I am offering to represent you as Councillor for Ward 2 of Southern Victoria.

My platform is “*A voice for everyone*”. I enter into this race with no personal agenda. I am not going in “guns blazing” seeking to change everything all of the dedicated current and past mayors, councillors and residents have accomplished. Instead, my goal is to take your ideas and questions to the table. To let you know your concerns and suggestions have been heard. I make no false promises of what I will accomplish. I do promise to help maintain and improve our ability to live, work and play right here in our own community.

I understand our community is not without its issues. On many of our minds is the crime rate, the substance abuse issues, healthcare, affordable safe housing and jobs. I don’t have the answers but I am willing to work with everyone involved to overcome these obstacles. Most importantly I am there to listen to you and to share your unheard views and recommendations with the decision makers so that TOGETHER we can make a difference.

“Count your blessings” and look at all of the reasons our community is worth rallying for.
