

Greetings, everyone!

I have lived in Tobique Narrows since 1987, and for over 35 years I have served as a federal public servant, protecting our community and country, and upholding our laws with fairness, integrity, and respect.

Beyond my career, I have always believed in giving back, spending many years coaching soccer and basketball, and helping young people grow, succeed, and build confidence.

Now, I am ready to continue that service as a councillor.

My three main concerns, which affect all aspects of our lives, are **health care, housing, and public safety**. However, I believe the best decisions are made by listening first—to residents, local businesses, community groups, and municipal staff who understand the day-to-day realities.

My focus is to ask questions, gather information, and help bring forward options for council to consider, rather than arriving with fixed solutions. Good governance starts with understanding what people truly need, what is working well, and where improvements are needed.

If elected, I will work to support open discussion, careful review of information, and fair consideration of all viewpoints so that decisions reflect the community as a whole.

I look forward to representing the Village of Southern Victoria with honesty, dedication, and a commitment to helping build a safe and healthy community for everyone.
